

Future Leaders

Future Leaders is a variant of our Leading for Success program which has been designed for participants who are destined for leadership but are not yet holding a formal management position. We run separate, tailored courses for School Seniors, University Students and Graduate Recruits in the workplace. All our workshops use game-based learning and are highly interactive. Future Leaders is particularly fast paced and upbeat, suitable for a more youthful audience.

Overview

Type of Learning:	Workshop
Suitable for:	Young people who are destined for leadership but are not yet holding a formal management position. We run separate, tailored courses for School Seniors, University Students and Graduate Recruits in the workplace.
Duration:	3 days
Key Question:	What practical actions from a leader drive success for their project or team?
Expected Outcomes:	The workshop will enable you to explore and develop your leadership potential – understanding what leadership is all about, and reflecting on your own personal strengths and development needs. In addition, you will develop valuable skills which will enable you to enter the world of work ready to make a real contribution
Content Information:	<p>Participants will take the GPI™ Questionnaire which helps them to explore their natural style for leading tasks and people; enabling them to play to their strengths and discipline themselves into overcoming their weaknesses. The following practical skills will be developed:</p> <ul style="list-style-type: none"> ➤ Developing a vision and being clear about what you are aiming to accomplish ➤ Turning that vision into practical plans for action & managing resources effectively ➤ Getting people to co-operate with you willingly; engaging and motivating others ➤ Helping others to do things better and better; leading learning and improvement

Other Information: Past experience has shown us that participants achieve a much higher level of skill if they are provided with follow-up coaching. We usually do this in small groups with 4 sessions (each 6 weeks apart) where participants are supported by a tutor as they implement a workplace improvement project. We are happy to train teachers to act as facilitators for such small groups.

“By providing practical tools for good leadership, the program was empowering and inspiring. It included fun opportunities to practise the skills we were developing.”

Kathleen Noble | Training Program Participant
